NYOTA PAINTS

Rangi Bora

01 VINYL MATT EMULSION PAINTS

Vinyl Matt emulsion is a top quality paint for interior and exterior use. It is easy to apply using brush, roller or spray and produces a tough, long-lasting matt finish.

Spreading capacity; Approximately 15/16 sq.m/ltrs. For best results apply 2 coats when Re-decorating and 3 coats when painting new unpainted walls and ceilings.

02 PAINTS SUPPER GLOSS ENAMEL

Manufactured from high quality raw materials, Nyota Super Gloss is a rich paint with a tough, deep gloss finish. When re-painting surfaces of the same shade, no undercoat is required.

Spreading Capacity- Approx. 15-16sq.m/liter

03 HI-GLOSS ENAMEL WHITE PAINTS

Hi-Gloss Enamel is an economy quality product with a blend of high quality pigments. It gives excellent opacity, long term durability and protection to metal, plaster, bricks, wood, hard boards etc.

Spreading Capacity- Approximately 11-13sq.m/liter

04 PAINTS GREY METAL PRIMER

Grey metal primer is a good quality rust-inhibiting metal primer suitable for use on iron and steelwork and aluminum alloys especially suitable where light colored finishes are required. It has excellent opacity and film build.

Spreading Capacity- Approx. 12/16sq.m/liter

05 COVER MATT EMULSION WHITE PAINTS

Formulated to provide an economical matt finish, Cover matt is suitable for coating exterior cement rendered walls, masonry/interior walls and ceilings. It is quick and easy to apply by brush, roller or spray and has excellent hiding power.

Spreading Capacity-Approx. 14-15sq.m/liter on smooth surfaces.

06 PAINTS SILK VINYL SHEEN

Silk Vinyl Sheen produces a tough silky and washable paint ideal for Kitchens, bathrooms and high traffic areas.

It reduces maintenance coast when applied to corridors, staircase walls and public areas. It is quick and easy to use, dries fast and has little odour.

Spreading Capacity-
Approx. 14-15sq.m/liter on smooth surfaces.

08 TURPENTINE

Being one of the most widely used hydrocarbon solvent, Nyota mineral turpentine combines good solvency with controlled evaporation. It is used for thinning paints, linseed oil, waxes and polishes. It also cleanses metals, brushes and equipment after painting.

09 WHITE SPIRIT

White spirit is a petroleum distillate used as a paint thinner and mild solvent. It cleans and degreases machine tools and parts.

10 THINNER

Thinners are used for cleaning applications tools such as spray and guns. Standard thinners also offer good drying times than conventional cellulose thinners.
